# The Best **Quality** for Your Best Performance

SENOH's Indoor and Beach Volleyball Systems were used in Paris 2024. Since TOKYO1964 at which volleyball first became an Olympic sport, and beach volleyball joined at Atlanta in 1996, Senoh has been the official supplier in almost all the Olympic Games.

Senoh has the equipment that meets all of the standards of volleyball's governing bodies. Today, Senoh's volleyball systems have become the most widely known and used in the world, which in turn makes Senoh as the international standards.

SENOH's achievement extends to Olympic Games, World Championships, World Junior/Youth Championships, World Cup, World Grand Champions Cup, Volleyball Nations League, Beach Volleyball World Tour, Beach Pro Tour, Regional Tournaments of NORCECA, CSV, CAVB, CEV, and AVC, Professional teams, University, College, School and Stadiums.

## Durability - Senoh Steel

Senoh's FIVB approved official volleyball posts (DE1015) are made of special cold drawing steel tube that is specially manufactured for volleyball.

General steel pipe has a joint as it is made by rounding then welding a flat plate. This process enables inexpensive mass production but the welded part causes a quality unevenness. Senoh steel tube has no joint (imagine drawing a hole from a round pillar) and this seamless steel allows inner tube to move up and down smoothly and obtains stability in both toughness and deflection. Also due to its thickness, DE1015 can be approximately 3 times stronger compared to general steel posts. Senoh Steel Posts withstand the power of top athletes.

	1. Yield Point	2. Tensile Strength
Senoh Steel Φ76.3, TH5.15mm	★★★	★★★★★
General Steel Φ76.3, TH4.2mm	★	★★

1. Boundary that the deformation is not restored to its original condition.
2. Strength at breaking point

## Lightweight - Senoh Carbon

The lightest carbon posts (DE5300) have been released by combining Mizuno carbon technology and Senoh manufacturing expertise.

This light product (only 23kg in pair) enables women, children, and the elderly, to carry and set up more easily and safely. Besides, the carbon is free from rust and paint peeling in a long term use. For volleyball as lifelong sport --- Senoh is proud of providing all the volleyball players with the variety of products that are absolutely safe and have a long life.

## ■ Renovation - Senoh Beach System

Senoh's Beach Volleyball System has been consecutively selected at Olympic Games since Atlanta 1996 to Tokyo 2020 and Paris 2024.

The succeeding system comes into the world. The new products are renovated for beach use --- dust/ water/ rust proof, easy height adjustment, reasonable weight to handle --- and sustain the durability for high performance.

## ■ Accurate & User-Friendly Design

### Height Adjustment

Senoh's bevel gear enables stepless height adjustment (1900-2430mm) and accurate net height setting is feasible according to various floor thickness.

### Designed Inclination

Senoh's floor apparatus (for indoor) and anchor system (for beach) are designed to be inclined outward taking "a bow of upright by net tension" into account.

\* Excessive net tension may cause a damage on net or upright. Net tensioning limit should be 90 degree (until the upright stands vertically).

## ■ Visibility - Perfect Square

Hard to see if net is distorted --- Senoh's technology creates "Perfect Squares" of the net for high visibility.

### Material Technology

Senoh's net string is composed of 360pcs of ultra fine fiber (90T). This Superlex (90T/360) enables Senoh net being light, tough, and flexible.

### Manufacturing Technology

The upper white bands are stitched with cords and adjust the net square s easily.

"Perfect Squares" make it possible to highlight your logo.

Logo print on DE800361 (official volleyball net with 45mm square mesh) is available upon your request.

■ Tension Strength & Durability

Rope end is caulked in 2 ranges and the compressed fitting with resin prevents ropes coming off.

Senoh Caulking

General Caulking

Tension at side ropes is even and this way of tying prevents crease or tear.

Senoh Rope Work

General Rope Work

**Senoh Technora Cable**  
Technora cable enables high tension strength and durability without fray or torsion.

	1. Yield Point
Tension Strength	Cleared 8000[N] (load of general use: 2500[N])
Durability	Cleared 10000 times load test of 0 ~ 2500[N]

■ White & Clean

White band is a part being touched very often --- specular working prevents stain or finger marks and keeps the bands white and clean. Senoh's smooth and even white band enables to receive clear logo printing.

White Band with specular working (Senoh)

Senoh white band

White Band without specular working Uneven surface catches finger marks easily.

General White Band

# FIVB Approved Indoor Volleyball System

Senoh's "Volleyball & Beach Volleyball Posts, Safety Pads, Net & Antennae and Referee Chair" have been approved by FIVB as official equipment since 1992.

DE101500 Official Volleyball Posts
FIVB approved
Indoor use
Internal bevel gear system
Special cold drawing steel tube construction
Fine height adjustment for multiple floor heights
Under-floor L300mm
φ76.3mm

DE201000 Official Safety Pads
FIVB approved
Indoor use
Urethane foam
Inside TV cable insertion
H1850 x L230 x W280mm

How to set up

## DE800300 Official Volleyball Net

FIVB approved

Indoor use

Polyethylene net with technora cable

Dtex 90T/360

H1000 x L9500mm

100mm x 100mm square mesh

## DE800361 Official Volleyball Net

FIVB approved

Indoor use

Recycled polyester with technora cable

Dtex 1670T/14

H1000 x L9500mm

45mm x 45mm square mesh

※ Logo print on DE800361 net mesh available (DE800P01-10)

※ Logo print on white bands available upon request (DE800080)

## DL052000 Official Referee Stand

FIVB approved

Indoor use

Heavy duty steel frame with padding

Easy to transport with casters

Detachable hand rail

H1850 x L1100 x W970mm

Footplate height is finely adjusted by handle  
(H1040-1640mm)

## DE941100 Official Volleyball Antennae

FIVB approved

Indoor & Beach use

Sold in pair

L1800 x  $\Phi$  10mm

Made in Taiwan

KD014000

KD014100

KD014000 Floor Apparatus  
(for Floating Wooden Floor)

KD014100 Floor Apparatus  
(for Synthetic over Concrete Floor)

Indoor use

Upright socket under floor

Aluminum alloy sliding type

Under floor L350mm(for under floor L300mm upright)

Floor plate L170 x W146mm

For  $\Phi$ 76.3mm Post

All Senoh Indoor Volleyball Posts require Floor Apparatus to be installed previously under the floor before setting the Posts up. Construction concrete setting may take about 7-14days.

## DE220000 Safety Pad Cover

Custom made cover for DE201000

Any color + any print design with wide range of possibilities

Easy attach and detach with Velcro and zipper

Light and smooth fitting

Tricot made

## How to set up

## DL070000 Referee Stand Pad Cover

Custom made cover for DL052000

Any color + any print design with wide range of possibilities

Easy attach and detach with Velcro and zipper

Light and smooth fitting

Tricot made

DE240000

Detachable handrail
H2100 x W750 x D900mm
Footplate height adjustable 930-1430mm

## KZ501000 Beach Volleyball Anchor System

Beach use

Hot dip galvanized steel anchor socket x2  
Steel pipe 1500mm x 2  
Fine timber 1500mm x 4  
Sand bag x 12

For  $\Phi$ 76.3mm post For under floor L300mm post

Under ground 500mm

## KZ510000 Beach Volleyball Anchor System

Beach use

Hot dip galvanized steel anchor socket x2

Simple type for the court with enough sand depth

Under ground 1000mm

For  $\Phi$ 76.3mm post For under floor L300mm post

## DE630000 Beach Volleyball Court Lines

Beach use

For 16x8m court, consists of 4 lines

Polypropylene made

Pulled in the sand by adjustable polyester cable and rubber disc base

W50mm

## DE841000 Official Beach Volleyball Net

FIVB approved

Beach use

Technora cable with polyethylene net

With wooden stick

Dtex 90T/360

H1000 x L8500mm

## DE841061 Official Beach Volleyball Net

Same specification as DE8410

45mm x 45mm square mesh

- FIVB logo print on DE841000 may be required for particular game under regulation
- Logo print on DE841061 net mesh available
